TITLES

A comparison of cardiovascular risk as measured by compound blood lipid indices and two indices including lifestyle factors in occupational health service. Berg JE, 299

A metaanalysis of mortality among workers exposed to organic solvents. Chen R, Seaton A, 337

A study of lung function and chest radiographs in men exposed to zirconium compounds. Marcus RL, et al., 109

A study of the impact of occupational and domestic factors on insomnia among industrial workers of a manufacturing company in Japan. Tachibana H, et al., 221

A survey of hearing loss in army aircrew. Owen JP, 53

A survey of respiratory and dermatological disease in the chrome plating industry in the West Midlands, UK. Williams N, 435

Activities of an occupational health organization in Japan, in special reference to services for small- and medium-scale enterprises. Mizoue T, et al., 12

AIDS programmes at the workplace: A scoresheet for assessing the quality of services. London L, 216

An outbreak of pruritic skin lesions in a group of laboratory workers—A case report. Sim MR, Echt A, 235

Beliefs and attitudes towards AIDS policies and educational programs among Japanese businesses. Muto T, et al., 356

Blood pressure variability at an annual periodic health examination for employees and cardiovascular risk factors. Inoue M, et al., 228

Clinical assessment in the workplace: dermatitis. Rycroft RJG, 364

Colour vision requirements of firefighters. Margrain TH, et al., 114

Comparison of the respiratory and hemodynamic responses of healthy subjects to exercise in three different protocols. Bogaard HJ, et al., 293

Compliance with the control of substances hazardous to health regulations (COSHH) 1980 and health and safety awareness in hairdressing establishments. Palmer KT, 49

Cost-effective health promotion. Guinot CW, 371

Cumulative blood lead levels and nerve conduction parameters. Chia SE, 59

Dental problems in the offshore oil and gas industry: A review. Duffy B, 79

Do attitudes and beliefs influence work loss due to low back trouble? Symonds L, et al., 25

Effects of vibration on the hands of Indian miners. Dasgupta AK, 71

Emergency response to environmental toxic incidents: The role of the occupational physician. McCunney RJ, 397

Enamel erosion related to winemaking. Ferguson MM, et al., 159

Essential acquired cold urticaria: Stimulated only by systemic as well as local cooling. Cooke RA, 157

Estimated exposure to static magnetic fields for the staffs of NMR-units. Jonsson P, Barregaerd L, 17

Fatal chemical pneumonitis due to cadmium fumes. Fernández MA, et al., 372

Feasibility study of respiratory questionnaire and peak flow recordings in autobody shop workers exposed to isocyanate-containing spray paint: Observations and limitations. Cullen MR, et al., 197

Health surveillance for hospital employees exposed to respiratory sensitizers. Smedley J, Coggon D, 33

Heat illness in the army in Cyprus. Bricknell MCM, 304

Hempson Industries UK Ltd. A case study in occupational health services. Shaffer GJ, 84

How I evaluate an occupational health programme. Deacon S, 375

How to meet the media. Felton JS, 118

Hydrogen sulphide. Guidotti TL, 367

Hypertonic saline challenge in an adult epidemiological survey. Rabone SJ, et al., 177

Illhealth retirement— guidelines for occupational physicians. Poole CJM, et al., 402

Immunity to hepatitis A in paediatric and nursery nurses. Poole CJM, et al., 361

Knee pathology among seafarers: A review of 299 patients. Pearce MS, et al., 137

Methyl bromide intoxication during grain store fumigation. Deschamps FJ, Turpin JC, 89

Minor psychiatric morbidity, its prevalence and outcome in a cohort of civil servants—a sevenyear follow-up study. Jenkins R, et al., 209

Musculoskeletal problems among VDU workers in a Hong Kong bank. Yu ITS, Wong TW, 275

Musculoskeletal problems in the tomato growing industry: 'Tomato Trainer's Shoulder'? Palmer KT, 431

Musculoskeletal symptoms among dentists in a dental school. Moen EN, Bjorvatn K, 65

Neuropsychological symptoms among tanker drivers exposed to gasoline. Hakkola M, et al., 125

New York City Police Officers incidence of transcutaneous exposures. Pagane J, et al., 285

Normal cholesterol measurements in white collar workers still at cardiovascular risk? Berg JE, 141

Occupation and risk for the occurrence of lowback pain (LBP) in Danish employees. Xu Y, et al., 131

Occupational asthma in greenhouse tomato growing. Eriam AR, et al., 163

Occupational health services in manufacturing industries in Nigeria. Iash EC, et al., 333

Occupational tuberculosis and a failed postgraduate medical examination. Stenton SC, Hendrick DJ, 87

Physician-based case-control study of nonmelanoma skin cancer in Baytown, Texas. Gansler JS, et al., 186

Postsplenectomy sepsis—the role of occupational health. Brew I, Adiese A, 231

Potential problems in peak expiratory flow data used to diagnose occupational asthma. Miller NR, 239

Problem-based learning as a training modality in the occupational medicine curriculum. Felton JS, 5

Quality improvement by means of 'differential' occupational health care: An experiment in a regional occupational health centre. Weel ANH, Slotboom MAJ, 20

Reasons for rejection: Why people fail to qualify as firefighters. Ide CW, 421

Sickness absence following a campaign of vaccination against influenza in the workplace. Leighton L, et al., 146

Smoking and exposure to occupational hazards in 8,304 workers in Guangzhou, China. Lam TH, et al., 351

Superficial copper staining of the teeth in a brass foundry worker. Donoghue AM, Ferguson MM, 233

Susceptibility to varicella zoster virus infection in health care workers. Gallagher J, et al., 289

SWORD '95: Surveillance of workrelated and occupational respiratory disease in the UK. Keynes HL, et al., 379

The Fort McMurray demonstration project in social marketing: health and safetyrelated behaviour among oil sands workers. Guidotti TL, et al., 265

The influence of study characteristics on the healthy worker effect: A multiple regression analysis. Chen R, Seaton A, 345

The perceptions of line and senior managers in relation to occupational health issues. Falconer L, Hoel H, 151

The treatment of hydrofluoric acid burns. Matsuno K, 313

The use of chelating agents in occupational lead poisoning. Porrer S, Alessio L, 41

Work-related injuries in Danish fishermen. Jensen OC, 414

Work-related asthma in a population exposed to grain, flour and other ingredient dusts. Smith TA, Lumley KPS, 37
